CERAMICA
DOLOMITÈ

Collezioni

Ogni collezione Ceramica Dolomite è la testimonianza della passione per l'arte del vivere, realizzata con la cura e la maestria dall'ingegno italiano. Esclusivi sanitari, mobili e rubinetterie si caratterizzano per le forme essenziali e la purezza delle linee e trasformano il bagno in un nuovo spazio di raffinato benessere quotidiano.

NEWS 2024

Collections

Every Ceramica Dolomite's new collection reflects the passion for the art of living, made of Italian talent. Exclusive sanitaryware, furniture and fittings are distinguished by their essential shapes and purity of design, turning the bathroom into a new space of daily wellness.

Sistema Vortice

Vortex System

L'innovativo sistema a vortice di Ceramica Dolomite consiste in una nuova tecnologia di risciacquo basata su un vaso completamente rinnovato, con il foro dell'uscita dell'acqua nascosto alla vista.

Concepito per un risciacquo a spirale, garantisce una maggiore velocità e semplicità di pulizia. La circolazione dell'acqua a vortice, piacevole alla vista, permette di ottenere una silenziosità ineguagliabile.

Ceramica Dolomite è da sempre attenta a preservare l'ambiente e con il sistema a vortice il wc viene pulito con un consumo medio d'acqua pari a 3,5 litri d'acqua, con un grande risparmio idrico.

The new CD vortex system consists in a flushing technology, based on a completely renovated bowl, where the water outlet hole is not visible at all.

Set up for spiral rinse, it guarantees a quick and easy cleaning. Furthermore, the water special vortex circulation is nice to be seen and incredibly silent.

With this vortex system Ceramica Dolomite confirms once again to take care of environment: the bowl is clean with an average water consumption of 3,5 liters, with a big water saving.

Multiplo

Multiplo

Multiplo è una nuova collezione di lavabi concepiti a sistema, tutti definiti da una forte componente geometrica che ne esalta il linguaggio contemporaneo. Come tutti i prodotti Dolomite, Multiplo è trasversale ovvero abbinabile a tutte le linee del Catalogo; può essere inoltre integrato con portasciugamani. L'essenzialità formale lo rende versatile per qualsiasi ambientazione o stile di vita. Multiplo è disponibile nella versione a parete o in appoggio su mobile o piano ceramico.

This collection concerns a system of basins, all of them distinguished by a strong geometric feature, which emphasizes their modern language. As the other Dolomite products, Multiplo is transversal, as it can be combined with all the Catalogue collections; moreover, it can be enriched by a towel rail. The essential shape keeps it versatile for any ambience or lifestyle. Multiplo is now available in a wall-mounted version, or to be installed on furniture or ceramic top.

Move

Le sue forme ricordano il fluttuare dell'acqua ed evocano il movimento delle onde: la pulizia del volume esterno del lavabo si contrappone all'interno vivace e dinamico. Questo effetto viene accentuato dalla smaltatura interna del bacino in oro, in argento o nelle altre finiture cromatiche proposte nel catalogo (bianco opaco e nero opaco). Move diventa così una sorta di accento espressivo all'interno di qualsiasi spazio residenziale o commerciale.

Its shapes recall the water floating, and remember the moving of the waves: the external cleanliness contrasts with the dynamic and vibrant interior. This effect is intensified by the basin internal glaze in gold, silver or in the other finishes presented in the Catalogue (matt white and matt black). Move becomes an expressive element in any residential or commercial space.

Oltre Top Ceramic – Matt White

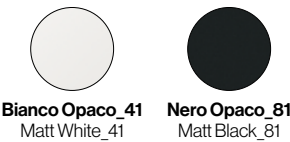

Piani ceramici

Il Sistema dei piani ceramici esalta la grande energia espressiva di questo materiale. Installati autonomamente a parete, possono accogliere molteplici lavabi del catalogo Dolomite; si abbinano con la massima versatilità al portasciugamani, a mobili contenitori di varie tipologie, e alla nuova struttura pensile, che permette di raddoppiare il piano di appoggio e l'organizzazione dello spazio. È possibile, inoltre, integrare una illuminazione RGB notturna o con accensione in presenza. Il “sistema” grazie alla sua ampia poliedricità, si adatta a qualsiasi esigenza di arredo contemporaneo.

Oltre system

Le sue forme definiscono le superfici piane di piatti doccia, piani in Ceramica e lavabi. Non è un semplice decoro, ma un motivo stilistico, che lega prodotti con funzioni diverse. Le linee guizzanti di Oltre anche in questo caso, sono una metafora dell'acqua.

Oltre lavabo / Oltre basin
Oltre top ceramica / Oltre ceramic top
Oltre piatti doccia / Oltre shower trays

Its lines define the surfaces of shower trays, Ceramic tops and vessel basins. It is not just a decoration, it is a stylistic pattern, which connects various products with different functions. The dancing lines of Oltre are again a metaphor for water.
